CHIEF PATRON

Prof. K. Sasikumar, Chairman, Sree Buddha Educational Society (SBES)

Prof. V. Prasad, Secretary, SBES

Sri. A. Sunil Kumar, Treasurer, SBES

PATRON

Dr. K. Krishnakumar, Principal

Dr. Saji Varghese, Vice Principal,

Sree Buddha College of Engineering, Pattoor

CONFERENCE HIGHLIGHTS

- *Keynote lectures by eminent national and international experts*
- *Oral and poster presentations*
- *Invited lectures by Faculties and research scholars*
- *Interdisciplinary interaction among academia, research and industry*
- *Opportunities for networking and research collaboration*
- *Best Paper Award recognizing outstanding research and innovation in each track*
- *Publication opportunities in ISBN proceedings/ Scopus indexed journals/ Abstract booklet.*

Focal Theme: "Smart and Green Materials for Sustainable Applications"
Smart, Functional and Advanced Materials
Green, Sustainable and Bio-Based Materials
Nanomaterials, Nanotechnology and Biotechnology Applications
Sustainable Materials for Civil and Mechanical Engineering
Smart and Green Materials for Food Technology and Environmental Applications
Energy Materials, Advanced Manufacturing and Emerging Technologies

Registration fees

Category	Indian (Rs.)	International (USD)
Student participation	500	6
Student presentation	1000	12
Faculty & Research Scholar	1500	18
Industrialist	2000	25

CALL FOR PAPERS

IMPORTANT DATES

Last date for submission of abstract::05/11/2026

Notification on paper acceptance:10/11/2026

Last date for registration:15/11/2026

Conference date: 9-11 December 2026

Registration Link

Sree Buddha College of Engineering Pattoor, Alappuzha (Autonomous)

Department of Biotechnology and Biochemical Engineering

Organizes

INTERNATIONAL CONFERENCE SERIES – III

on

"Smart and Green Materials for Sustainable Applications" (ICSGMSA)Hybrid mode

9-11 December 2026

www.sbce.ac.in

ABOUT THE INSTITUTION

Sree Buddha College of Engineering, established in 2002 by the Sree Buddha Educational Society, a charitable organization promoted by the Sree Buddha Foundation, is an AICTE-approved institution affiliated to APJ Abdul Kalam Technological University. The institute offers UG and PG programmes in Biotechnology & Biochemical Engineering, Food Technology, Civil, Mechanical, Electrical and Electronics, Electronics and Communication, Computer Science and Engineering, Electronics and Computer Engineering, and Artificial Intelligence and Machine Learning. Besides receiving several honours, the college is also reaccredited by the National Assessment and Accreditation Council (NAAC) with A recognized under Section 2(f) of the UGC Act, and departments accredited with NBA.

ABOUT THE DEPARTMENT

The Department of BT & BCE Started in 2002 established an unparalleled reputation in teaching and research. The department has been accredited by the National Board of Accreditation (NBA). We offer 4-year B.Tech (Biotechnology & Biochemical Engineering), 2-year M.Tech (BT & BCE), and PhD programs in Biotechnology and allied fields. The highly competent and experienced faculty members, with PhDs, have inspired excellence, innovation, and strong entrepreneurial skills. The department's key research & development areas focus on biosensors and nanobiotechnology, molecular diagnostics, genetic engineering, biochemical engineering, bioprocessing, and biofuel technology.

ABOUT THE CONFERENCE

The third edition of the conference, ICSGMSA 2026, aims to bring together academicians, researchers, students, innovators, and industry professionals from diverse disciplines to exchange scientific knowledge, share industrial experiences, and disseminate recent research outcomes in the field of smart and sustainable materials and technologies. ICSGMSA 2026 builds upon the successful legacy of the International Conference Series I and II on “Smart & Green Materials for Biotechnology, Biochemical and Mechanical Applications” (IC-SGMAT), organized in 2023 and 2025, respectively.

The previous editions provided a valuable platform for academicians, researchers, and practicing engineers to exchange knowledge, share research findings, discuss emerging trends, and foster academic and professional collaborations and facilitated the publication of an ISBN-registered proceedings. Building on the success of these earlier conferences, ICSGMSA 2026 expands its scope to encompass smart and green materials for sustainable applications across multidisciplinary domains. The conference is envisioned as a vibrant platform for fostering interdisciplinary collaboration, encouraging innovation, promoting knowledge exchange, and exploring emerging technologies that contribute to sustainable scientific and technological development.

CONVENOR
Prof. Meera Bai S, HoD (BT&BCE)

Organising Secretary
Dr. Shamnamol G K, Associate Professor, Dept. of BT&BCE

Joint Secretary
Prof. Chinchu Elezebeth, Assistant Professor, Dept. of BT&BCE

Organizing Committee Members
Dr. Sibi Raj; Dr. Tamilmani J; Dr. Shilpalekshmi L ;
Dr. Archana Rajendran
Assistant professor, Dept. of BT&BCE

ADVISORY COMMITTEE MEMBERS

International Advisory
Dr. Kumar Sudesh, Universiti Sains Malaysia, Malaysia
Dr. Ashna Rajeev, University of Waterloo, Canada
Dr. Surya Kannan, Qatar University, Qatar
Dr. Remya R, American University of Sharjah, UAE
Mr. Vshunu S Kumar, Rus BioPharm, Russia
Mr. Alen George, Novo Nordisk Engineering, Denmark

National Advisory
Dr. Sabu Thomas, Centre of Excellence in Microbiome, Thiruvananthapuram
Dr. Sharon Mano Pappu, IIT, Varanasi
Dr. V R Sinija, NIFTEM, Thanjavur
Dr. Binod P, CSIR-NIIST, Thiruvananthapuram
Dr. Biju Dharmapalan, National Institute of Advanced Studies-IISC, Bangalore
Dr. Baiju G. Nair, NIT, Calicut
Dr. Arjun Prasad, KSCSTE, Thiruvananthapuram
Dr. Jaya Mary Jacob, KSCSTE, Thiruvananthapuram
Mr. Eldhose P Kauma, Nitta Gelatin India Ltd, Ernakulam
Dr. Vaishakh Nair, NIT, Surathkal

DISTINGUISHED SPEAKERS

Dr. Jeswin Joseph
Postdoctoral Researcher | Corbett Lab, Harvard T.H. Chan School of Public Health, Boston, USA

Dr. Manoj Kumar
Scientist D | CSIR–Institute of Minerals and Materials Technology (CSIR–IMMT), Bhubaneswar

Dr. Lara Dronjak
Researcher
American University of Sharjah, UAE

Dr. Lu Yin
Post-Doctoral Fellow
Surface Science and Bio-nanomaterials Laboratory, University of waterloo, Canada

Dr. Nitin Muralidharan
Assistant Professor
Department of Chemical Engineering, IIT Madras
